Room #8B-201
Washington, DC 20544

Dear Chairman Martin,

Many communities, both rural and urban, are facing technological challenges which need to be addressed immediately. I understand that the FCC is reviewing a proposal to provide fast, free and family-friendly wireless broadband internet access to all Americans.

This proposal, if approved, would not only help these communities as a whole, but it would help each citizen fully access our economy, government services and media outlets.

Our communities and citizens deserve free access to wireless broadband internet service. Please consider the many benefits of the proposal to bring fast, free and family-friendly wireless broadband internet access to all Americans. Thank you.

Sincerely,
